

BZX84C...Series

Silicon Planar Zener Diodes

FEATURES

Zener breakdown voltage range - 2.0 V to 75 V

Package designed for optimal automated board assembly

Small package size for high density applications

This series of Zener diodes is offered in the convenient, surface mount plastic SOT-23 package. These devices are designed to provide voltage regulation with minimum space requirement. They are well suited for applications such as cellular phones, hand held portables, and high density PC boards.
